REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the instant claims are allowable over the prior art of record, because the prior art is silent to an electrochemical battery cell comprising an electrolyte disposed within a housing, a transformable component disposed between the housing wall having at least one air inlet and oxygen reduction electrode; wherein the transformable component, when contacted by the electrolyte, transforms the electrolyte to a sealing component.

The prior art, such as JP2000040538, teaches an air zinc battery, wherein prevention of electrolyte leakage is achieved by improving strength of diffusion paper. The reference does not teach or suggest transforming the electrolyte into a sealing component. Therefore, the instant claims are patentably distinct from the prior art of record.

Conclusion

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
